

Introduction to MS Web Development CIS-236 30 0

Fall Term 2023-2024 School Year Section 30 0 3.00 Credits 08/21/2023 to 12/08/2023 Modified 08/15/2023

Course Description

This course builds on concepts presented in the CIS 131 C# Programming course by learning how to embed C# code within multi-page web applications. Students will learn how to use server controls, validation controls, master pages, site navigation and themes within ASP.NET/C#. Object-oriented concepts will be used to create multi-tiered applications. Prerequisite: CIS 131, CIS 195
